With compliments of

SCOTT & COMPANY,

by whom Orders for this Sale will be faithfully executed.

SCOTT & COMPANY solicit correspondence with parties having Collections of Coins or Postage Stamps they wish to dispose of. Possessing the leading papers in these lines give them unsurpassed facilities for securing the representation of nearly every American Collector.

NOTE.—The Third Volume commences with the January Number.

THE

Coin Collector's Journal.

An Illustrated Monthly Magazine devoted to the interests of Amateur Numismatists.

Subscription \$1.00 per year, post free. Single Copies 15c.

This Journal is published on the first of every month, and consists of sixteen pages of reading matter, interesting to all Coin Collectors; special care being taken to so vary its contents that every reader will find something to interest him, while every subject treated upon will be profusely illustrated with engravings by the first artists. A valuable feature of the Journal consists in its accurate report of all coin sales, by means of which collectors are enabled to keep posted in regard to the actual market value of all coins.

EVERY COLLECTOR SHOULD SUBSCRIBE AT ONCE!!!

P R E F A C E .

We wish to call particular attention to the fact that the coins in this collection are to be sold in the *evening*, instead of the afternoon, as usual. We have made this change for the convenience of gentlemen who are unable to attend auctions held in the day time, thereby giving all an opportunity of purchasing, and also of seeing what they buy. The coins will be on exhibition throughout the day in the salesroom.

In regard to the condition of the various pieces, we can assure intending purchasers at a distance that they have all been faithfully described, and in cases of the slightest doubt, the condition of the coins has, if anything, been rather under-estimated.

For the pieces which are to be sold, we refer the amateur to the catalogue, where he will doubtless find many desirable pieces, especially among the U. S. silver and American colonial series.

To the large number of new collectors to whom this Catalogue will be sent, and who have not yet commenced to purchase their coins at auction, we would say in regard to the selling, each lot will be knocked down to the highest bidder : the lots are sold so much for each coin in it, so if you desire a lot of coins which contains ten, and you wish to pay \$1.00 for it, your bid should be 10 cents, which would be \$1.00 for the lot. Amateurs sending their bids in from a distance, should be very particular in regard to this. The Auctioneers, Messrs. Scott, and other dealers, will attend to the purchasing of any desired lots for parties unable to attend the sale, at a charge of 10 per cent. Always state your highest price, and rely on the honor of those you employ to make the purchases for you at as low a figure as possible.

THE COINAGES OF THE WORLD,

ANCIENT AND MODERN.

This work is intended to give correct information on a subject of which no educated person can afford to be ignorant; and yet, till the publication of this volume, it has been impossible to obtain a general knowledge of the *Coinages of the World* without reading through dozens of heavy quartos, at great loss of time, and probably heavy expense.

By the aid of this book, any person can at once determine the nationality of any coin they may possess, and obtain much interesting information concerning the cause which led to its issue. It is well filled with beautifully executed representative coins of every people, age and country, and is the only comprehensive book on the subject ever published. The paper, press-work and binding are all of the very best. No library can be complete without it.

PRICE--CLOTH, \$2.50. HALF MOROCCO, \$3.50.

For sale by all booksellers, or will be sent, post free, on receipt of price, by the publishers,

CRITIQUES.

The New York Times of December 27th, says:

"What every student of Coinages—not the mere collector of old coins—wants to know."

The New York World of November 27th, says:

"Welcome to all amateur and experienced numismatologists, to whom it will not only convey valuable information, but be useful as a work of reference."

The New York Evening Post of November 29th, says:

"A work of great interest to numismatists and collectors of coins. * * * The text, which is full, is illustrated by several hundred engravings of the principal coins of all ages and countries."

The New York Daily Graphic of December 23d, says:

"Shows a great deal of special study and painstaking research. It is a monograph full of interesting and curious information, and besides its ample learning, gives several hundred engravings of the principal coins. The various appendices to the volume add materially to its convenience and value for reference."

The American Journal of Numismatics of January 1st, says:

"This is an octavo volume of 306 pages, with a large number of wood-cuts of examples of both ancient and modern coins. It has several appendices, giving lists of the French sovereigns, explanations of the abbreviations on Roman coins, a list of Roman families who have issued coins, and other matters of interest. The text is sufficiently elaborate to give the general reader a good idea of the subject, and to excite his interest in the science of numismatics. From the brief examination we have been able to give it, we judge it to be one of the most valuable and compendious books on coins, especially for those collectors who have not the time or inclination to consult the ponderous quartos of the old writers, which has yet appeared."

The Coin Collector's Journal of January 1st, says:

"This is decidedly the most important work on numismatics that has appeared during the past year, and will doubtless be the means of starting many new collections, as it is written in popular style, and occupies a field distinctly its own. The first chapter introduces us to the first coin, and we are gradually led from the coins of the Greek Island of Aegina, to those of Athens, Corinth and Macedonia; from Miletus and Ephesus to Egypt and Judea; from Græcia Magna to Rome, and so down through the Byzantine Empire to Medieval and modern Europe, including also Asia, Africa and America (the coins of our country and England being very fully described), giving fine engravings of all the principal types of each, till every coin-issuing State or Colony has been noticed: in fact, it is more than a coin book, it is a short history of the world, and should be in every house."
